

BLACK FOSTER 3 FLOOD 2700K N

Black Foster is the lighting fixture that transfers the applauded "Invisible Black" effect to a linear system. Black Foster is composed of a series of combinable modules enabling the alternation of segments with light emission and without light emission. However, whether it is ON or OFF, this luminaire always keeps the aesthetics of a perfect dark line. To the observer, it is impossible to distinguish between Black Foster parts that emit light from those that don't. Black Foster's modularity provides a wide range of different combinations, allowing to set up the light emission location as many times as needed, and adapting itself to the requirements of each project in particular. *** NOTE: Recommended for installations where the profile can be installed before the false plasterboard ceiling (thickness 12,5 mm).

Brand

Arkoslight

Designer

Rubén Saldaña

Type

Downlight, System

Electrical Characteristics

IP 20
L80B10 (Tc=85°C)
>60.000h
MacAdam Step 3
Please Consult
6,3 W

Material

Aluminium, Acrylonitrile
Butadiene Styrene, Polycarbonate
9005

Photometric Data

Beam Angle: 38° W
Efficiency: 92%
CRI>90

Dimension

212x155x73 mm
Gross Weight: 335

Light Temperature

2700k

Colour/Finish

Matt black
